

Model TAL-2100ER

Electric Round Product Label Applicator

TAKE-A-LABEL... Providing Economical Solutions In Round Product Labeling Systems

The TAKE-A-LABEL Model TAL-2100ER Round Product Labeler will label virtually any round product. Step on the footswitch to activate the labeler and, labels up to 5" wide can be applied. Products are quickly loaded into the applicator with the unique open carriage design. The top wipe down brush ensures that the labels are fully applied to the product. The open bottle support can be changed from one size to the next in seconds without the use of tools.
